

SUPPLEMENT

For Kohler CH440/Honda GX390 Pkg.

GENERAL

This publication provides information on replacement parts for your compressor package. These replacement parts supersede the comparable package components listed in the parts lists included on the CD-Rom included with your compressor. **Note: The bare compressor components listed in the parts lists included on the CD-Rom are still applicable.**

This Supplement is only applicable to your package if the engine is not mounted to a ½" thick 8"x13" steel plate.

ORDERING INSTRUCTIONS

All parts listed in this supplement can be ordered through your local full service provider. Visit www.ingersollrandproducts.com to locate the provider in your area. When ordering, provide the model number and serial number located on the unit silver rectangular nameplate/specification label.

WARNING

HAZARDOUS VOLTAGE AND HIGH PRESSURE AIR. Can cause serious injury or death. Disconnect power and bleed pressure from the system before servicing.

OPERATION

Refer to the supplied engine manufacturers Owner's Manual for proper safety and operating instructions related to the engine.

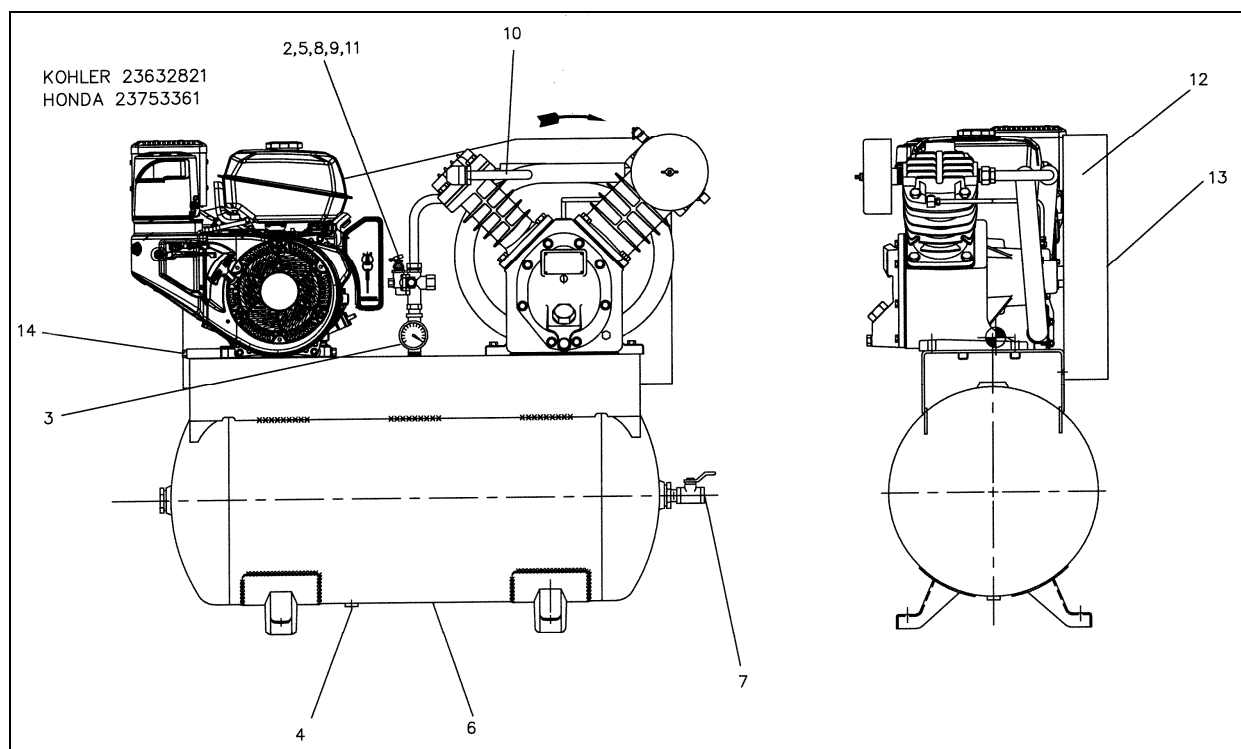

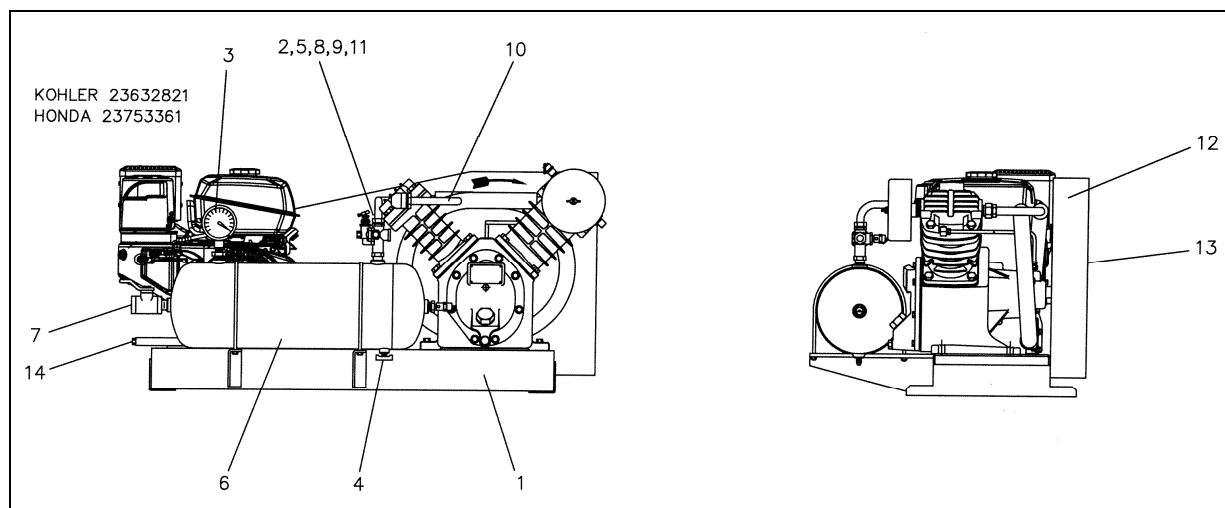

MOUNTING

Proper mounting of the 2475FGT Model necessitates the use of the supplied vibration isolation kit. Follow installation instructions included in the kit.

GROUNDING

Connect the battery negative (-) cable to the bolt shown in the illustration below.
